Sherri Webber, SNS
Bachelor Degree-Business Management
School Nutrition Specialist

Sherri is President/Owner of LaVon Group, Inc. a company specializing in School Nutrition Solutions. She started the business after 18 years of working in School Nutrition programs in Pennsylvania, New Jersey and finishing her career in Florida. Sherri is an expert in her field with a plethora of knowledge regarding the rules and regulations of the National School Lunch Program (NSLP), National School Breakfast Program (NSBP) and Afterschool Snack Program (ASSP). She has been a certified ServSafe instructor for the past nine years and a certified trainer for the Institute of Child Nutrition (ICN) for seven years. Throughout her career, Sherri has had the opportunity to work at all levels within the program and in all capacities. She most recently completed Administrative Reviews for the Texas Department of Agriculture, representing TCB Consulting. Previous to this project she conducted efficiency assessments of two school districts in West Virginia. She has expertise with technology implementation installing software and conducting training; an area specialist working one-on-one with cafeteria managers operating a financially negative program and creating a positive fiscal balance within the school year; assist in preparation for the previous Coordinated Review Effort (CRE); she had an instrumental leadership role in creating and conducting manager intern programs developing highly recognized managers; and she created several technology and operational training manuals still used today. Since inception of her company, seven years ago, she has assisted districts in Florida and Georgia with preparation for the Administrative Review. She has conducted training sessions all throughout the Southeast including; food safety, menu planning, production records, dietary guidelines, point-of-service, customer service/relations and effective communication. She has written food safety training instructions for ICN and has also written two training videos with one being recognized by USDA Best Practice. Sherri has presented instructional sessions at both the state and national levels; has been interim School Nutrition Director for several districts; and is the purchasing agent for a group of charter schools throughout Florida and several other states.
